Ed

It has been so long since the project has been before the board that i need some time to get back into it.

Please drop off (at town hall) a package addressed to me with a copy of all the approvals received (stamped plans and approval letters).

I will set some time aside to look at them and then call you to set up a meeting regarding any questions I have.

Thanks

mark

Hello Mark

You had mentioned in the past, getting together and going over what might be needed on the referenced project, in order to move it ahead, and perhaps have finally approved and signed. Mr. Biagini has authorized us to bring copies of latest DEC, DOH, and Town PB plans and meet with you, so I wanted reach out and ask that you let me know when that might best fit into your schedule.

Looking forward to seeing you

Ed

Please do not hesitate to contact me with comments or questions.
Thank you
